

Teambuilding Workshops

Purpose: Building a deliberate team culture in the workplace is essential for long-term success. Yes, it improves morale and team spirit. More importantly, it increases bottom line productivity and revenue.

Unlike most teambuilding workshops, we do not simply present information. We teach practical skills, namely how to apply the information. We facilitate productive learning through a mix of stimulating content, break-out groups, and teambuilding exercises. We incorporate simulations, role playing and brainstorming to get important points across. In fact, because of our interactive training, workshop attendees do more than learn. They participate!

Results: Participants will have the opportunity to:

- Explore teaming and group decision making through activities.
- Learn more about themselves with their personal profile assessment and share results with fellow team members.
- Establish a process or outcome goal for working collectively on reframing a current obstacle or setting a benchmark.
- Use a team development model and profile to assess the team.

Methods: Facilitators offer debriefing sessions and coaching throughout the program, providing additional opportunities to relate learning experiences to the actual work environment. The process may include the following:

- ✓ Pre-assessment work
- ✓ One-day or more facilitated program and follow up work
- ✓ Team building activities
- ✓ Interactive training and exercises
- ✓ Assessments
- ✓ Simulations and scenarios
- ✓ Facilitated group discussions

Attendees: Team members, facilitators, sponsors and leaders are invited to participate in this workshop.
