

University of New Hampshire

KIN 541: Challenge Course Management

Offered in Fall on Thursdays and Spring on Mondays

Hours: 1:10-5pm, 4 credits

The course provides students with an introduction to the basic facilitation/ technical skills to manage a challenge course program. Exposure to intermediate technical skills usually required for lead facilitators. Specific topics include group process, framing, and sequencing, belay methods, participant and instructor equipment, operating procedures for low and high challenge course elements, and industry standards. Permission required for freshmen.

Special fee. \$35
